

## HIGH GRADE IN DIVIDE EX. WINZE

### Sample Runs \$1,800 With One Streak Going Into Pictures

#### FLEET WAITING OUTSIDE PORT OF SAN DIEGO

(Associated Press) SAN DIEGO, Aug. 6.—The Pacific fleet is assembled at the rendezvous of the Mexican coast, awaiting the arrival of the fleet from San Diego. More than 100 vessels had anchored there today. The Georgia and the first battleship to anchor. Four destroyers slipped into San Diego after midnight, making seven altogether.

The Georgia traveled here, 128 miles from the main fleet and 100 miles from San Diego, with the intention of giving her first duty of two days before the fleet's arrival date set for the first of September. A message from Admiral Bland recalled her. The Georgia was the first big vessel of the fleet to pass through the Panama canal. It was the first American warship to be used for convoy duty after the United States entered the world war and also the first warship to be used for return duty.

#### CHAMBER MINES GETS A START

The Chamber of Mines is a new organization which has been organized through the aid of the Chamber of Commerce. The Chamber of Mines is a new organization which has been organized through the aid of the Chamber of Commerce. The Chamber of Mines is a new organization which has been organized through the aid of the Chamber of Commerce.

#### U. S. TREATY IS SUPPRESSED BY WILSON

(Associated Press) WASHINGTON, Aug. 6.—Secretary Lansing told the senate foreign relations committee that the American plan for a league of nations was "suppressed" at Versailles and never was presented to the peace conference in full. He did not know whether a copy of the American draft still was in existence. He presumed the president made it and might still have a copy.

Discussing the Shantung provision, he said the Lansing-Baile agreement to obtain Japan's reaffirmation of an open door policy in China was entered into by the American government without knowledge of the secret treaty between Japan and the allies for a transfer of the German concessions in Shantung to Japan. Lansing said it was true Wilson vetoed the peace commission request that confidential minutes of the league of nations commission be not furnished the French senate.

#### SULPHIDES PROVE VALUES INCREASING WITH DEPTH

The Divide Extension Mining company has opened what is regarded as the most important strike ever made in the district for the reason that at a depth of 110 feet sulphides are showing with an enrichment that is

without parallel in such depth. The find was made in the winze which was sunk in the rear wall of the drift 5 feet from the shaft. Samples taken last evening gave values of \$1860 from a six-inch streak while two feet ran \$75. This morning it was stated that 14 inches yielded \$1800 and that one streak, bristling with chloride of silver, sulphur and at gentle angles to the surface, was the percentage of silver held in the ore. As one engineer expressed it there has been nothing so rich since the early days of Comstock when quartz was taken out carrying 50 per cent silver.

The real importance of the discovery is the fact that the presence of silver sulphide demonstrates that what has been held by some geologists to be a surface phenomenon can no longer be considered a surface concentration, as it must come from a deep seated fissure.

Developments may prove this to be the greatest sensation found in the sensational mining history of Nevada. Roy Early, engineer of the Divide Extension has resumed sinking the

winze which will be sunk down 200 feet before any further prospecting is being done. Work will be continued to the surface.

#### FORMER KAISER WILL BE TRIED

(Associated Press) LONDON, Aug. 6.—The allies have not altered their decision to hold the trial of the former German emperor in London. Andrew Bonar Law, government leader, announced in the House of Commons today. He said no action could be taken until the German peace treaty is ratified.

#### RAPID TRANSIT STRIKE STOPS IN BROOKLYN

(Associated Press) NEW YORK, Aug. 6.—Stations in the subway and on elevated and surface lines of the Brooklyn Rapid Transit company were designated at the early rush hour by the strike of part of that company's 1,000 employees. They demand an 8-hour day and cessation of the strike, and increased pay to 53 cents per hour for attendance, with a 10 per cent bonus for other employees.

#### EMBARGO PUT ON SHIPMENTS

(Associated Press) CHICAGO, Aug. 6.—The effect of the shippers' strike on traffic was disclosed today through an embargo by several railroads being placed on freight shipments except railroad loads of livestock and perishable goods. The number of strikes seems to be increasing. It is believed that this will result in serious additional damage to business from the embargo. Assistant United States District Attorney Miller is actively trying to secure an injunction against the strike, which was called with a view to preventing these shipments.

#### BRITAIN GOING AFTER HOARDERS

(Associated Press) LONDON, Aug. 6.—Britain was today establishing a central authority to deal with profiteering in foodstuffs and necessities in construction, announced by the government of Sir Herbert Asquith.

#### ELECTRIC LINE TO THE DIVIDE

A new electric line to connect Tonopah with the Divide district will be established at a cost of \$500,000. The line will be established at a cost of \$500,000. The line will be established at a cost of \$500,000.

#### WILSON ORDERS JOINT SESSION

(Associated Press) WASHINGTON, Aug. 6.—Organized labor may advocate carrying the word for some of those responsible for the wave of profiteering after a more thorough inquiry. Warren Stone, grand chief of the Locomotive Engineers, told the House Interstate Commerce committee, in carrying on the plan of railroad control. He said labor demands that America become the home of industrial freedom as it has become the land of political freedom.

Stone said that unless congress found a solution of the living problem within a few months America would see "its very worst period."

President Wilson will appear at a joint session of congress at 4 o'clock on Friday. Officials believed he would recommend "more teeth" to make existing laws effective and cope with profiteering. He possibly may suggest a licensing system to control the margin of profits.

#### BLEED PUBLIC IS THE MOTTO

(Associated Press) WASHINGTON, Aug. 6.—President Wilson will address congress Friday on legislation to reduce the cost of living. Department of justice agents today enforcing the order of the attorney general to seek profiteers and hoarders of food and necessities under the Food Control act. The federal trade commission report submitted to congress and the high prices shows the result of "excessive profits" by hoarders who had taken an "unusual margin" while manufacturers and retailers have charged prices that were "not justifiable."

The commission recommended a "strict enforcement of laws against monopolistic control of commodities and legislation forbidding producers of hides to engage in the tanning business and the adoption of a device by the distribution of shoes that would acquaint the consumer with the selling prices of the manufacturer."

#### MEXICANS WILL DECIDE ON OIL

(Associated Press) MEXICO CITY, Aug. 6.—An extraordinary session of the Mexican congress to consider oil legislation will be called about the middle of August. Leon Salinas, chief of the oil bureau, said the message Carranza sent to congress last November would be the basis of consideration. Salinas, in a statement to the Associated Press, said so far as his department was concerned the question of oil legislation is closed. He said the department was waiting reports on sink wells and had turned the whole question over to congress for final disposition.

Diplomatic reports of Japanese interest in securing oil fields on the Atlantic and Pacific coasts of Mexico. Salinas declared the department had no official record of such transactions. He said Japanese oil men made no inquiries at his department. He admitted it would be possible for them to acquire holdings from private individuals and his department was not advised of deals. He said almost all of the oil (except along the Atlantic coast) is held by American, British or other interests and it seemed hardly probable that newcomers could acquire important holdings by purchasing small tracts from Mexicans.

#### EMBARGO PUT ON SHIPMENTS

(Associated Press) CHICAGO, Aug. 6.—The effect of the shippers' strike on traffic was disclosed today through an embargo by several railroads being placed on freight shipments except railroad loads of livestock and perishable goods. The number of strikes seems to be increasing. It is believed that this will result in serious additional damage to business from the embargo. Assistant United States District Attorney Miller is actively trying to secure an injunction against the strike, which was called with a view to preventing these shipments.

#### RUMANS DEMAND HEAVY PENALTY

(Associated Press) PARIS, Aug. 6.—The Rumanians have served an ultimatum on the Hungarian government, making demands far in excess of the armistice terms, according to messages which the Hungarians were given until today to comply.

In conference circles it is feared that the Rumanian action will result in the overthrow of the new Hungarian government. French circles stated that the Rumanian army is not under command of Marshal Foch.

#### FACE BADLY SCORCHED

An explosion in the firebox under the boiler at the V and T shops about 11 o'clock yesterday morning A. D. Dority, the fireman, had his face and hands badly scorched.

The fire under the boiler had practically gone out and was smoldering when Mr. Dority started to build it anew. Gas in the meantime had generated and when a light was applied the explosion followed, driving flames away out in the boiler room and burning the old gentleman as stated.

An alarm was turned in and though the department responded quickly the fire had been quelled before its arrival.

Mr. Dority was taken to his home and is now under the doctors' care.—Carson Appeal

#### WHITE CAPS PROCESS PROVES A SUCCESS

The Manhattan Magnet announces authoritatively that the success of the amended process at the White Caps mill is definitely proven and that the saving is already very materially improved and will be still better when the new stack is installed and certain minor changes in the manner of treatment, now under way, are completed. The stack is now in Reno and will be here and installed in about a week. The amount of ore treated is being held to about 75 tons daily and will not be increased until the new process is fully in action, as it is found that the loss is less with the smaller tonnage. As to the mine, it never looked better in its history and is easily the biggest gold property in the state of Nevada. The enormous steps on the sixth level is breaking an average of better than \$20 to the ton. Development work is being carried forward, particularly in the western area.

**TODAY'S WEATHER**

By local observer United States Weather Bureau

Temperature	59.00	noon
Current	62	50
Wet bulb	44	51
Relative humidity	23	14
Temperature extremes	1619	1818
Maximum yesterday	89	91
Minimum yesterday	57	54

**GOVERNMENT HELPS TO BOOST PRICE CORN**

(Associated Press) CHICAGO, Aug. 6.—Corn bounced upward on the announcement that the government would maintain the guaranteed wheat price.

**DRILL ON THE WAY**

George Allan received a wire this morning stating that the drill and derrick for the Hilda Divide were on the way and would arrive here about the end of the week.

**FAIRVIEW ROUND MOUNTAIN EARNINGS FOR JULY**

The production of the Fairview Round Mountain Mines company for the month of July was \$23,300. The full force is employed on development work and ore extraction and the mill is being operated 24 hours per day. Lateral work has been started from the 250-foot level of the main vertical working shaft for the purpose of exploring the orebody encountered in sinking the shaft.

**AUSTRIAN PROPOSAL**

(Associated Press) PARIS, Aug. 6.—The Austrian counter proposals to the peace terms were handed the allied mission at St. Germain en Laye today.

**PROFITEERS ARRESTED**

(Associated Press) PITTSBURGH, Pa. Aug. 6.—Three officers of the Pittsburgh branch of the Central Sugar company, are charged with profiteering.

**CRIMINAL SYNDICALISM CASES ARE DISMISSED**

G. H. Johnson, O. B. Johnson, Henry A. Shaffer and Thomas H. Hays, arrested by the state police and charged with advocating criminal syndicalism, were released in Goldfield last night and the charges against them dismissed following a hearing before Justice of the Peace Brown. The dismissal was on motion of District Attorney Foley and the court stated in dismissing the case that the evidence was insufficient to substantiate the charges.

Two witnesses, M. C. Enley and C. F. Lecker of the state police, testified against defendants and failed to establish a case to such an extent that it was immediately seen nothing but a dismissal could result from the proceedings.

Detroit Methodists plan erection of a \$200,000 apartment house in which no family without children will be allowed to reside.
